A town fragrant with flowers

Pick-Your-Own Farm F-8

From winter to spring, visitors can pick flowers growing across the floor of the greenhouse at this farm and eat strawberries to their hearts' content. Melons are also available in the summer.

The best route for driving!

Nada Flower Road F-8

A hidden Gobo scenic spot. Gobo is also known as the "Town of Flowers." The volume of flowers—including statice, baby's breath, and sweetpea—shipped from here is one of the highest in Japan. Drivers along Nada Flower Road are greeted by full fields of flowers backdropped by the blue seas off Wakayama.
